

Adult's Program

Creativity unlimited offers a friendly and dynamic environment to support you in your creative development.

Re-discover your freedom of expression

Our creative side is subtle and is often the first thing to get pushed aside in our busy and demanding schedules. But taking time out to re-discover your freedom of expression brings tremendous rewards of new insights, inspiration and energy. Even a little time out can bring you:

- A renewed sense of direction
- Energy and enthusiasm
- New insights and ideas

Classes

Drawing

Experience drawing in a relaxed and friendly studio environment. Each week we will work with dynamic exercises that are systematically designed to build your knowledge and experience of drawing. Each exercise develops from the proceeding ones and will sharpen your observational skills and develop your self-expression. We will experiment with a variety of different mediums, including charcoal, graphite, ink and paint. We will explore working on small and large scale drawings, working from life, from memory and photos. We will create drawings that are interesting and dynamic interpretations of your ideas and imaginations. A fun creative class to learn to draw in the friendly atmosphere of a small group.

Mondays

Time: 7.00pm – 9.00pm
